Dear Potential Historian of GOGI!

With the launch of PowerUp! Community Meetings and with more leaders earning GOGI Community Coach Certification, we must prepare for additional explosive growth of the GOGI Culture in the immediate future. We can preserve how the GOGI Culture is understood by generations to come by capturing the first moments of GOGI's evolution. It is wise to document our history, as this helps us secure the integrity of our culture in the years to come. This is where we seek your help. We are asking our GOGI leaders to document their initial contact with GOGI.

At GOGI, we believe our history IS our future and we consistently show the world how we overcome personal and societal struggles, even when many say change is not possible. As you know, it was not an easy task, creating a CULTURE that cut through the insecurities of differing beliefs, cultures, behaviors, habits, politics, and all the other challenges we dug ourselves out of in uniting as a force for good and giving the gift of the GOGI Tools to anyone interested in using them. This unity has occurred as a result of the GOGI students who have stepped up as our community leaders. Tens of thousands of individuals locked away in our Nation's prisons for causing harm to society have developed, designed, nurtured and now live a simple culture of internal freedom; and in doing so, a solution for all societies has emerged. PowerUp! brings GOGI to the streets. As it makes its way into schools and communities, we must remain solid and true to our roots. Documenting your first GOGI moments enables us to make a firm stand as to who we are as a culture of solutions-minded individuals.

We are asking for your gift to GOGI in the form of your recollection of your first GOGI moments. Remember, as with all gifts to GOGI, one hundred percent of all proceeds generated from anything given to GOGI go directly toward materials GOGI gives to men, women and children in prisons and jails. It is likely that a history book of GOGI will be published by GOGI when we find donors to pay for the publication. By turning in this form, you are aware that your words are a gift to GOGI to help expand the GOGI Culture.

Please, don't worry about your handwriting or spelling. I promise that no one really cares about those details. In fact, you are more human when a word is crossed out, or a word is misspelled, or all the letters are not formed perfectly. No one believes "perfect" because it is simply not possible. People want something with a heart and soul, not necessarily something perfect. People trust the "real" and "honest" as long as it is an effort with heart. Our history is about our heart, not what a 5th grade school teacher was or was not able to chisel into a set of writing skills. We want your heart to be shared. We want the real you at the exact moment you learned your first GOGI Tool. We would like you to document your introduction to Living the GOGI Way. Therefore, we invite you to consider the back of this page. Mail this form back to us at our LA address. And, as always, thank you for being part of the solution!

With Love and GOGI 4 Life!
